Welcome from EFORT

Prof. Dr. Theofilos Karachalios
EFORT President 2024 / 2025

Prof. Dr. Luigi Zagra
Chair EFORT Science Committee

Dear Participants,

We live in a rapidly evolving orthopaedic world, where technological advancements are significantly transforming both education and clinical practice. The pace of technological improvement is accelerating, presenting the challenge of ensuring that we have the means to keep pace with this evolution.

One notable trend is the shift in patient behaviour and expectations. Modern patients are increasingly well-informed, often turning to online resources and simply googling information about their conditions and potential treatments. This can lead to fast-tracked decisions that are not necessarily tailored to the individual patient's needs. This raises the question: how do we (re)-define the role of the orthopaedic specialist in this context?

Investments made by the implant and pharmaceutical industry are increasingly geared towards the individual user experience, and educational dissemination is being explored through new methods.

How do we interpret the truthfulness, reliability, and impartiality of such a flow of information?

Recognising these challenges, the European Federation of National Associations of Orthopaedics and Traumatology (EFORT) is committed to tackling these issues openly. Building on a dialogue that scrutinizes the ethical and outcome-related implications of modern technologies in orthopaedics, we are excited to announce the theme of the 26th EFORT Annual Congress in Lyon 2025: "Modern Technologies in Orthopaedics - Challenging Ethics and Outcomes".

EFORT invites orthopaedic and trauma professionals from Europe and around the world to participate in this important event. Together, we will shape our community platform to engage in meaningful discussions, share diverse perspectives, and critically assess the impact of technological advancements.

ONLINE SUBMISSION PROCEDURE

After logging on <https://scientific.efort.org/efort2025> follow the onscreen instructions through the system to guarantee a correct and complete submission. A **valid email address** for each co-author is mandatory. EFORT will contact authors via the email addresses given during the submission process.

Abstracts must correspond to previously unpublished work. EFORT reserves the right to reject your abstract if previously presented. Moreover, EFORT has focus on ethical research misconduct. Any kind of plagiarism or fraud like fabrication and falsification of data will not be tolerated and handed over to the corresponding responsible authorities.

Submission is defined by differentiation of Clinical Research vs. Basic Science vs. Review studies and by one presentation type among Free Paper or Clinical Report (oral podium), or as Poster. EFORT reserves the right to change your abstract(s) allocation. There is no restriction on the number of submissions from a unique author or group, but each registered participant will have a maximum of six abstracts (3 oral presentations and 3 posters) accepted.

Double submissions are automatically withdrawn.

Submitters can edit the authorship information and data of their abstract(s) directly on the online platform until the submission deadline. For any request, directly contact us at scicom@efort.org.

INFORMATION ON ABSTRACT ACCEPTANCE

Authors and co-authors will receive acceptance/rejection notifications on **Wednesday 31 January 2025**.

The presenting author of a selected abstract must undertake to attend the Congress and present the abstract in the session and at the time designated by the EFORT Science Committee. **EFORT requires each presenting author to complete his/her full registration to the congress to validate his/her abstracts in the final scientific programme.** Deadline for registration of presenting authors is **Friday 28 February 2025, 23:59 CET**.

ORAL PRESENTATIONS

Abstracts accepted as Free Papers are presented orally within scientific sessions embedded in the core Congress programme. Very high scientific quality is expected from these presentations, which should correspond to complete studies with outstanding results and innovative conclusions. To ensure that sessions run smoothly, please refer to the Presentation Guidelines available online. The best-rated Free Papers under both Orthopaedics and Trauma main categories will be selected to compete in the Free Paper Award competition and will receive specific guidelines.

POSTER PRESENTATIONS

All abstracts accepted as Posters will be presented at the Congress as print wall paper posters. Authors are welcome to add images, tables and detailed data to better document their work. A large display area will be dedicated to poster presentations and Poster Walks will be organised during the Congress to have posters evaluated by experts in the corresponding fields. To ensure that posters are under the correct format for display, refer to the Poster Guidelines available online. Best-rated Posters will compete for the Jacques Duparc Award and will receive specific guidelines.

THE EXPERTS CONTRIBUTION

EFORT aims to provide worthy scientific guidance via the presentation of well-established medical techniques, but also to highlight new evidence in emerging fields. Renowned experts will discuss their procedures, the rationale for their decisions, their successes and failures. At the Congress, an important source of international knowledge and experience in the prevention and treatment of diseases and injuries of the musculoskeletal system will be within your reach. The EFORT scientific sessions are training programs with high scientific value. Authors invited to contribute to the scientific content of the Congress by presenting their work orally should adhere to the same standards, as their contributions are an essential part of the core programme.

As EFORT is the biggest European platform to share orthopaedic and trauma knowledge, an active participation in our upcoming 2025 Congress is the best opportunity to identify new data related to any specialty, gather useful tips and tricks to enhance daily medical achievements and expand the professional network.

About Lyon

A JEWEL OF ART, CULTURE AND INTERNATIONAL EVENTS

Welcome to Lyon, a city where the past and present seamlessly blend to offer an unforgettable experience to all its visitors. Once the capital of silk, Lyon is now the centre of French gastronomy. Nestled in the heart of the Auvergne-Rhône-Alpes region, Lyon is much more than just a tourist destination; it's a true cradle of art, culture, and innovation.

■ Unparalleled cultural heritage

Lyon is famous for its rich architectural heritage, listed as a UNESCO World Heritage Site. Wander through the medieval alleys of Old Lyon, marvel at the majestic Basilica of Notre-Dame de Fourvière, or stroll along the picturesque banks of the Saône River. Every corner of the city reveals a fascinating history and timeless beauty.

■ A vibrant artistic center

Artists from around the world flock to Lyon to draw inspiration from its creative atmosphere and dynamic artistic scene. From contemporary art galleries to historic theaters, and renowned cultural festivals, Lyon offers a range of incomparable artistic experiences. Experience the magic of the ancient theater of Fourvière or explore innovative exhibitions at the Museum of Confluences.

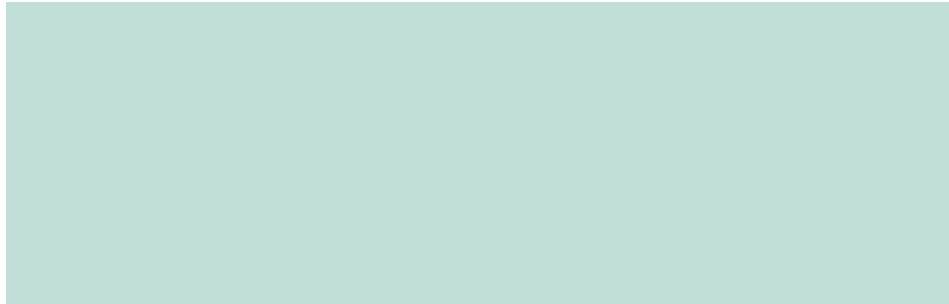

■ A hub for international congresses and events

Lyon is not only a city of history and culture but also a thriving business hub. With its modern infrastructure and world-class services, Lyon is the perfect place to host congresses, conferences, and international events of all sizes. From state-of-the-art convention centers to fully equipped meeting rooms, Lyon provides everything you need to organize memorable and successful events.

■ Discover Lyon: a must-visit destination

Lyon is not only a city of history and culture but also a thriving business hub. With its modern infrastructure and world-class services, Lyon is the perfect place to host congresses, conferences, and international events of all sizes. From state-of-the-art convention centers to fully equipped meeting rooms, Lyon provides everything you need to organize memorable and successful events.

HOW TO GET TO LYON

■ By Air

Lyon Saint Exupéry Airport is France's 2nd regional airport: 116 direct destinations including 96 international destinations (36 countries) with 44 airlines.

First French airport in terms of client satisfaction in 2018. The welcome scheme in place for visitors attending association congresses and trade shows are all part of the **Welcome by Only Lyon** initiative.

Lyon Saint Exupéry airport is **directly connected to the TGV** and to the Lyon city centre every 15 minutes in under 30 minutes thanks to the **Rhone Express rail line**.

The airport is accessible through other various transportation options: **Taxi, Airport Shuttle Buses** or **car rentals**.

It is located close to the **A432 motorway**, connected to Lyon city centre by the **A43 (E711) motorway**.

■ By Train

The second largest city in France is blessed with **great rail (SNCF)** and **public transport** links.

Lyon is just 2 hours from Paris with trains every hour, 3.5 hours from Brussels, 5.5 hours from London or 6.5 hours from Milan.

The main railway stations, Gares de **Lyon-Part-Dieu** and **Lyon-Perrache**, are centrally located.

■ By car

Lyon is at the heart of a comprehensive motorway network linking France's major cities and main European capitals. Ideally located in the heart of Europe, the Lyon Convention Centre is just 1 hour away from Geneva, Switzerland; 3 hours away from Turin, Italy; 4 hours away from Paris, capital city of France; 4.5 hours away from Milan, Italy and 5 hours away from Barcelona, Spain by car.

Please note that as part of its fight against pollution, Greater Lyon has introduced a 'Zone à Faibles Emissions' (ZFE – Low Emissions Zone) covering Lyon, Villeurbanne and Caluire, as well as Bron: privately owned vehicles with a Crit'Air 4, 5 or 'non-classified' disc, as well as vehicles without a disc, will no longer be allowed to drive and park on roads within the area concerned.

Visit the **French Ministry of Ecological Transition's website** to order your Crit'Air disc.

■ Other

The **Transports en Communs Lyonnais – TCL**, the city's public transport network offers an extensive multi-modal public transport network with 120 bus lines serving over 3000 stops, 4 metro lines, 2 funicular lines and 5 tramway lines, thus making it easy to travel in and around Lyon.

The **Vélo'v**, the local public bike hire service is a convenient way to move around the city, with more than a 1,000 kilometers of cycling path across the Greater Lyon and 428 free dock stations.

Find the docks and bikes available at each station in real time on the **interactive map** or on the official Vélo'v app (iOS Et Android).
